

Dr. Luben Emanouilov Tchakarov

Name: Luben Emanouilov Tchakarov, MD, Ph.D. (McGill University)

Contact information:

Department of Anatomy,
College of Medicine, King Saud University
P.O. Box 2925, Riyadh 11461 Saudi Arabia
E-mail: liouben@hotmail.com
Academic Title: Assistant Professor

PUBLICATIONS:

1. Tchakarov, L., Zhang, L., Rosé, S.D., Tang, R., Trifaró, J.-M. (1998) Ultrastructural demonstration of chromaffin cell F-actin network disassembly by nicotinic receptor stimulation. *J. Histochem. Cytochem.* 46(2) 193-203.
2. Sherif, M.F., Abd-El-Bassett, E.M., and Tchakarov, L. (1988) Do low intensity radiation promotes regeneration in peripheral nerves? *Experimental Biology*, April 18-22, 1988.
3. Tchakarov, L., Zhang, L., Rosé, S.D., Tang, R., Trifaró, J.-M. (1997) Ultrastructural demonstration of chromaffin cell F-actin network disassembly induced by nicotinic receptor stimulation. (9th International Symposium on Chromaffin Cell Biology, Sapporo, Japan, May 26-30, 1997).
4. Tchakarov, L. (1994) Calcium-regulated actin-binding proteins in the growth cone fraction of newborn rat brain. *Ottawa Life Sciences Conference*, October 18 and 19, 1994.
5. Rodriguez Del Castillo, A., Vitale M.L., Tchakarov, L., Trifaró, J.-M. (1992) Human platelets contain scinderin, a Ca²⁺-dependent actin filament-severing protein. *Thromb. Haemost.* 67, 242-251.
